DPC Continuing Education is back on Long Island this June with a full day workshop on project management for design professionals

With a reputation for unique and engaging courses, we have been delivering quality continuing education for design professionals with an emphasis on sustainability since 2006. As concern grows over the effects of climate change and the huge amount of energy our buildings continue to use, this type of training is more relevant than ever.

Every workshop event offers you extensive opportunities to learn and network, and always includes new material to satisfy your continuing education needs.

Committed to the ongoing professional development of registered architects, professional engineers, LEED professionals, and Landscape Architects, our live educational programs are held on a monthly basis throughout the tri-state area in comfortable settings and always include breakfast, lunch, and refreshments.

As continuing education providers for AIA, GBCI, and LA CES, DPC CE Inc. has agreed to abide by established operational and educational criteria, and is subject to annual reviews and audits for quality assurance. Our programs are accepted for credit in New York, New Jersey, and most other states.

DPC Continuing Education inc. is a registered continuing education provider with the American Institute of Architects Continuing Education System, the Green Building Certification Institute (GBCI), which is a subsidiary of the US Green Building Council, and LA CES of the American Society of Landscape Architects.

Project Management for Design Professionals

AIA: 370MNG

Ha Yeung Henry Yu, P.E.,
LEED Green Associate

Project management is the planning, coordination, and control of a project, from inception to completion. The goal of the practitioner is to meet the client's requirements in order to produce a functionally and financially viable product that will be completed on-time within established cost parameters and adhering to required quality standards.

Topics include: life-cycle cost, project initiation and scope, development, planning/organization, communications, cost estimating and cost control, quality assurance, managing risk, changes in scope, and project closeout.

8.0 AIA LU-HSW/PDH / LA CES

8:00 - 8:30 | Breakfast and Sign-in

12:15 - 1:00 | Complimentary Lunch

Please note: Speakers and topics may be subject to change
